

# 27 Heritage Venues Available To Explore

Turn learning into an adventure this spring and summer when you take a drive through the Ottawa Valley to visit our many local museums. The new RCMN (Renfrew County Museums Network) brochure, with addresses and telephone numbers, is a "must-have" item for any trip.

You can pick one up at any museum location or the Renfrew County Visitor Information Centres.

En route, the locations, hours, and events can also be easily found on the RCMN web site.

Whether travelling by car, motorcycle or bicycle, whether enjoying a local trip or researching information about ancestors, our museums will add a new dimension to your

experience.

Their broad diversity offers something for every interest, from our First Nations history through the early European County settlers to more modern times. Many artifacts date back to the 1800s and early 1900s.

The museums are located throughout the County, from Arnprior and Renfrew in the south to Petawawa and Deep River in the north, and through

Eganville to Barry's Bay and Combermere in the west.

Most, but not all, of them are seasonal, open only during the summer months.

Each museum is just a short drive from central Pembroke, and they are all worth the trip. In fact, it is easy to include stops at several of them plus local shops and restaurants during a day trip starting from wherever you live in the County.

The volunteers and staff at Renfrew County's many museums look forward to sharing a heritage experience with you this summer!
